VENDOR DIRECTORY

PREFACE

1. This Vendor Directory contains regular sources approved for manufacture and supply of components identified for this purpose.
2. As per Railway Board letter No. 2001/RS(G)/779/7 dated 01.02.2017, items at sl. no. 120 to 169 have been transferred from RDSO to ICF. Further these items will be controlled by ICF.

3. CAPACITY

The production capacities of the vendors have been indicated in the vendor directory. These capacities are the maximum production capacity for the bottle neck activity in the manufacturing process for each item, when the manufacture devotes his entire manufacturing capability towards manufacturing the particular item only. These figures are dynamic and may change from time to time, as the vendors keep on making adjustments in their product-wise capacity.

4. The publication of this Vendor Directory is an annual exercise. However, approvals granted in the intervening period between the issue of this list and the next list should be considered as valid on the basis of the approval letters issued by this office.
5. Any error or omission, as well as suggestions for further improvement may be communicated to the following address:
